STAT

PLANS AND PROGRAMS STAFF WEEKLY REPORT FOR
PERIOD ENDING 9 NOVEMBER 1983

1. <u>Progress Report on Tasks Assigned by the DCI/DDCI</u>:

No tasks assigned during this reporting period.

2   <u>Items or Events of Major Interest that have Occurred
During the Preceding Week</u>:

a. <u>Data Administration (DA)</u>. In implementing the DA
function, LI 15-1 (Organization) has been drafted for approval
and a memorandum was posted to P&TS requesting the preparation
of the DA staffing complement. Among other current activities,
we are studying the relationship of OL Wang Alliance systems
administration to the DA function. A Logistics Advisory
Notice (LAN) is also in preparation that will serve to publi-
cize implementation of the DA function and its need to iden-
tify potential OL ADP careerists.

b. <u>Regulations</u>

The following regulations were written, reviewed,
commented upon, concurred in, or published during the past
week:

STAT

Systems Analysis Branch/P&PS/OL
WEEKLY STATUS REPORT
Week of 31 October to 4 November 1983

I.   Major Activities During the Past Week:

A. Support to OL:

       CONIF (Contract Information System). Two menus have been
programmed for input and retrieval of procurement authority data.
The PA/INIT menu deals with the delegation of procurement
authority and the PA/RESCISSION menu is used for rescission of
STAT   authority.

       ICS (Inventory Control System). The processing of "8B"
transactions has been corrected and they are now creating DETAIL
records. This modification resulted from a change to the baseline
specifications and had been of critical importance to the
STAT   OL/ICS/DBM.

Several modifications have been made to the ADD-DET and XCLP
procedures. These changes are possible solutions for problems
with the DCN-INDEX and processing of Partials. They are currently
STAT   undergoing testing by the ICS data Base Manager.

A problem with a report that dealt with the processing of records
in prior years with more than 79 line items was resolved this
STAT   week.

II.   General Items:

        None to report.

III. Problems:

        None to report.

IV.   Upcoming Events:

        None to report.
